CoreLink Systems

Proposal: Larkspur Data Platform Modernization

August 27, 2026 - Reference CL-PRO-0927

1. Summary

CoreLink will modernize Larkspur's forecasting data platform on CoreLink Cloud and run it with 24/7 operations. Implementation takes 14 weeks with a team of 8.

2. Scope

- Re-platforming of all production pipelines with automated testing.
- Round-the-clock monitoring and incident response.
- Quarterly architecture reviews with Larkspur's data team.

3. Commercial Terms

One-time implementation fee: $380,000.

Annual subscription: $95,000 per year, covering hosting, monitoring and 24/7 support.

Billing basis: the subscription is billed annually from year 1, starting at contract signature, in addition to the implementation fee. Subscription pricing is locked for the first 24 months.

4. Service Level Agreement

CoreLink guarantees 99.9% monthly uptime. Service credits of 10% of the monthly subscription fee apply for each 0.1% below the target, capped at 50% of the monthly fee.

5. Terms

Payment terms are net 30 days. This proposal is valid for 60 days from its date.

6. Team

The engagement is led by Tomas Ibarra, Account Director, with a delivery lead, two platform engineers, three data engineers and a site reliability engineer.
